[How does the Egg Hunt work?](#)

We cannot fit all participating children into the egg hunt patch at once. So we split the children up into 3 age groups (ages 2-3; 4-5; and 6-11). While one group is hunting, the other two groups will be doing other fun activities (see the schedule on the next page). Each child will receive a map (appropriate to his/her age group) that will help guide them to all the activity stations. Parents of the younger groups are encouraged to accompany their children to all the stations.

[How many eggs will there be?](#)

There will be 4300 eggs total. Each age group will have 1400 to find when it is their turn.

[What is the egg hunt patch made of?](#)

Our custom-made egg hunt patch is filled with thinly shredded paper to give it a festive grassy look which also makes it more challenging for the children to find the eggs.

[What are the other activities?](#)

Aside from the Egg Hunt, the children will have the opportunity to hear the Easter story and make an Easter-related craft.
